Q. How are your painting prices calculated?
A. I total the total linear inches of the canvas, (e.g. a 5x7 inch canvas is a total of 24 inches), and then I multiply that number by $10 plus $10 worth of supplies = $250.00. See chart below for details.

Canvas Size	Price per Linear Inch	Supplies	Total Price
5x7	$10	$10	$ 250.00
8x10	$10	$15	$ 375.00
12x16	$10	$15	$ 675.00
16x20	$10	$20	$ 740.00
18x24	$10	$20	$ 860.00
24x30	$10	$20	$ 1,100.00
